

# ULTRA 22

ALL-ELECTRIC RADIOGRAM

STS

Regd. Design  
[No. 790991]

INSTRUCTION BOOK

## ● IMPORTANT SERVICE NOTE ●

If you are not getting results which you consider satisfactory, please write, giving full particulars of your trouble and stating the Mains Voltage, the type of Aerial and Earth you use, etc., etc.

ULTRA ELECTRIC, LIMITED, TECHNICAL (SALES) DEPARTMENT, ERSKINE ROAD, CHALK FARM, LONDON, N.W.3, will then give you expert advice which should enable you to get the best possible results.

Please do not return the instrument unless requested to do so.

*NOTE.—When communicating with us, please state the Warranty No. covering your instrument. This will save delay.*

## INSTRUCTIONS FOR INSTALLING AND OPERATING **ULTRA 22 RADIOGRAM**

---

### INSTALLING

Tested B.R.V.M.A. Radio Receiving Valves for use with the **ULTRA 22 RADIOGRAM**, if not already inserted in their correct sockets, should be fitted according to the plan view of the chassis printed below. These Valves are:—

**Mazda A.C./T.P.**

**Mazda A.C. V.P.1**

**Mazda A.C.2 PEN D.D.**

**Mazda U.U. 60/250**

To prepare the instrument for operation, remove the back of the cabinet by loosening the screws and take out the packing which is employed for the safety of the valves during transit.
